Dear Parents/Guardians and Students of QSS,

MOE had released notifications and a press release on enhanced measures that MOE and all schools are taking to support our national effort to fight the COVID-19 spread. Among these is the issuance of Leave of Absence (LOA) for all students who returned to Singapore on or after 14 March, 2359 hours.

We appreciate all parents/guardians and students who declared their travel plans before the March holidays. However, some of you may have travelled overseas, even for a day-trip, without informing us. If you have not informed the school, please call the General Office and provide us the details and we will advise you accordingly, as to when your LOA will end. This would be the socially responsible thing to do so that we can fight this virus spread together.

Please understand that these are enhanced precautionary measures to keep our students and staff in schools safe. It is over and above what has been announced.

- Students must stay away from school for the duration of their LOA.
- Students on LOA, as well as those who have to stay away from school due to quarantine orders or SHN, will all be supported via home-based learning, to enable them to continue with their learning. Class Mentors will contact them with details soon.
- Parents/Guardians to continue to remind their child/ward to practise good personal hygiene and social responsibility.
- MOE and schools are monitoring the situation and will continue to update parents/guardians when appropriate and necessary.

I thank you for your co-operation!
